1. Existing CORE Admin Features

The main intention of this document is as a supplementary to the User Requirement Specification (URS) and System Requirement Specification (SRS). This document will briefly explain the screen elements and its database mapping against Centralized Online (Data) Repository Ecosystem (CORE) database.

There are 3 elements in URM Module. The elements are:

1. Deep Search Setting
2. Well Management
3. CORE Health Checkup
4. Admin Setting
5. Backup Management
6. Search Engine Index Management
7. Project Tracker

Below is the provided link for Adobe XD wireframing for this module:

1.2.1 Screen Element

Field	Type	Mandatory	Description
Well Name	Varchar	Yes	The name of the well
Well Alias	Varchar	Yes	The alias of well name
Block Name	Varchar	Yes	The block name of the well
Field Name	Varchar	Yes	The field name of well
Basin Name	Varchar	Yes	The basin name of the well
Latitude	Decimal	Yes	The latitude of the well
Longitude	Decimal	Yes	The longitude of the well
X Easting	Decimal	Yes	The well X Easting
Y Northing	Decimal	Yes	The well Y Northing
Spud Date	Date	Yes	The spud date of well
Completion Date	Date	Yes	The date of completion
TD	Decimal	Yes	The true depth of the well
Well Type	Varchar	Yes	The type of the well
MDDF	Decimal	Yes	The measurement depth of the well
TVDDF	Decimal	Yes	True vertical depth of the well

Table 2 Screen Element

1.1.2 Database Mapping

Field	Table	Column	Description
Well Name	Well	Well_name	Enter name of the well
Well Alias	Well	Well_alias	Enter the alias of well name
Block Name	Well	Well_blockname	The block name of the well
Field Name	Well	Well_FieldName	The field name of well
Basin Name	Well	Well_basinname	The basin name of the well
Latitude	Well	Well_latitude	The latitude of the well
Longitude	Well	Well_Longitude	The longitude of the well
X Easting	Well	Well_X_Easting	Select the well X Easting
Y Northing	Well	Well_Y_Northing	Select the well Y Northing
Spud Date	Well	Spud_date	Enter the spud date of well
Completion Date	Well	Completion_date	Enter the date of completion
TD	Well	Well_TD	Select the true depth of the well
Well Type	Well	Well_type	Enter the type of the well
MDDF	Well	Well_MDDF	Select the measurement depth of the well
TVDDF	Well	Well_TVDDF	Select True vertical depth of the well

Table 3 Database Mapping

1.3 CORE Health Checkup

The screenshot shows the 'CORE | Health Check-up' page. It features a sidebar with navigation icons and a top navigation bar with tabs: 'Broken Links', 'Special Charaters', 'Document without Content', 'Duplicate Documents', and 'Too Long Paths'. The 'Broken Links' tab is active. Below the tabs, there is a 'Show 5 entries' dropdown. The main content area displays a table with the following data:

Document Title	Department	Path	Status
Block CA2 Brunei Darussalam Joint Management Committee (JMC) Q1 2016	Business Planning	//10.72.4.52/PCBL Common Drive/General/CORE@PCBL/Business Planning/2016/1) Block CA2/1) JMC/JMC #20 (Q1) 31 Mar 2016/1- Final Pack/Block CA2 JMC Q1 2016 - Final.pdf Copy	File Not Found
KEMBAYAU EAST-1 DRILLING PROGRAM	Exploration	//10.72.4.52/PCBL Common Drive/General/CORE@PCBL/Exploration/ Kembayau East-1 Drilling Program/PCBL-DRI_2019_2019_001_Rev01 KBYE-1 Drilling Program_20190601.pdf Copy	File Not Found
Inventory Management Guidelines and Procedures Manual	Procurement	//10.72.4.52/PCBL Common Drive/General/CORE@PCBL/Business Planning/2016/1) Block CA2/1) JMC/JMC #20 (Q1) 31 Mar 2016/1- Final Pack/Block CA2 JMC Q1 2016 - Final.pdf Copy	File Not Found
Logistic Guidelines and Procedures Manual	Procurement	//10.72.4.52/PCBL Common Drive/General/CORE@PCBL/Procurement/ Logistic/Logistic Guidelines and Procedures Manual.pdf Copy	File Not Found
Materials Management Guidelines and Procedures Manual	Procurement	//10.72.4.52/PCBL Common Drive/General/CORE@PCBL/Procurement/ Logistic/Materials Management Guidelines and Procedures Manual.pdf Copy	File Not Found

At the bottom of the table, there is a pagination control showing 'Previous', '1', '2', '3', '4', '5', '...', '78', and 'Next'.

Figure 12 Health Check-Up

1.3.1 Screen Element

Field	Type	Mandatory	Description
Document Title	Varchar	Yes	The title name of the document
Department	Varchar	Yes	The name of the department
Path	Varchar	Yes	The path of the document
Status	Varchar	Yes	The status of the document

Table 4 Screen Element

1.3.2 Database Mapping

Field	Table	Column	Description
Document Title	Health Checkup	Document_title	Display the title name of the document
Department	Health Checkup	Department_name	Display the name of the department
Path	Health Checkup	Document_path	Display the path of the document
Status	Health Checkup	Document_status	Display the status of the document

Table 5 Database Mapping

1.4 Admin Setting

The screenshot displays the 'CORE | Plugin Settings' page, specifically the 'Basic Settings' tab. The interface features a dark sidebar on the left with navigation icons. The top header shows the 'CORE' logo and a user profile for 'Hewdy_Engar_Admin'. The main content area contains the following settings:

- Main Folder on Network:** \Network\PCBL\Folder
- Duplicate Document Detection:** Same size and date
- Insert Special Characters:** #
- Document Path Max Length:** 200
- Max Document Size (MB):** 40
- Minimum Characters for Extracted Document Content:** 50
- Default Category:** Select Default Category
- Default SubCategory:** Select Default SubCategory
- Default Department:** Projects
- Default Stakeholder:** Select Default Stakeholder
- Default Event:** Select Default Event
- Default Location:** PCBL Office, Brunet
- Default Well:** Select Default Well
- Extract Date from Content in Bulk Upload:** ☐

A 'Save Changes' button is located at the bottom right of the settings area.

The screenshot shows the 'Backup Management' interface with the 'Destination' tab selected. The 'Local Backups' sub-tab is active, showing a list with one entry: 'A shared folder on intranet'. The 'FTP' sub-tab is also visible. The form fields for the selected destination are as follows:

Field	Value
Destination Name	A shared folder on intranet
Local File Path	\\10.72.4.52\PCBL Common Drive\General\CORE_Backup
Migration URL	
Archive limit	

A 'Save Setting' button is located at the bottom right of the form.

Figure 24 Local Network Destination

The screenshot shows the 'Backup Management' interface with the 'Destination' tab selected. The 'FTP' sub-tab is active, showing a list with one entry: 'My FTP'. The form fields for the selected destination are as follows:

Field	Value
Destination Name	My FTP
Server Address	\\10.72.4.52\MyFTP
Username	
Password	
Remote path	
Migration URL	
Archive limit	backup

A 'Browse & Select FTP Path' button is located next to the 'Remote path' field. A 'Save Setting' button is located at the bottom right of the form.

Figure 25 FTP Destination

1.5.1 Screen Element

Field	Type	Mandatory	Description
Backups	Datetime	Yes	The day, date and time of backups
Profile	Varchar	Yes	The type of profile backups
File Size	Varchar	Yes	The size of the backups profile
Title	Varchar	Yes	Title of the scheduled backup
Interval	Varchar	Yes	Times of the scheduled backup
Destinations	Varchar	Yes	Destination of the scheduled backup
Run Time	Datetime	Yes	Run time of the scheduled backup
Status	Varchar	Yes	Status of the scheduled backup
New Profile Title	Varchar	Yes	The name of the title new backup profile
Type of Backup	Varchar	Yes	The type of profile backups
Destination Name	Varchar	Yes	The destination name of the local network
Local File Path	Varchar	Yes	The path of the location directory
Migration URL	Varchar	Yes	The URL corresponding to the local destination path
Archive limit	Int	Yes	The number of archive limit to be store in destination
Destination Name	Varchar	Yes	The destination name of the FTP network

Server Address	Varchar	Yes	The address of the server
Username	Varchar	Yes	The username to access the FTP
Password	Password	Yes	The password for the above username
Remote path	Varchar	Yes	The remote path linked to the FTP server
Migration URL	Varchar	Yes	Target destination for the backup
Archive limit	Int	Yes	Number of archives to be kept in the destination. 0 for unlimited
Schedule Name	Varchar	Yes	The name of the schedule's backup
Backup Profile	Varchar	Yes	Type of the backup profile
Backup Interval	Varchar	Yes	Type of the backup interval
Date/Time of Next Run	Datetime	Yes	Date and time of the schedule backup's next run

Table 8 Screen Element
